Making the ContestConsole Tune lead is a simple process.

1) MOLEX plug
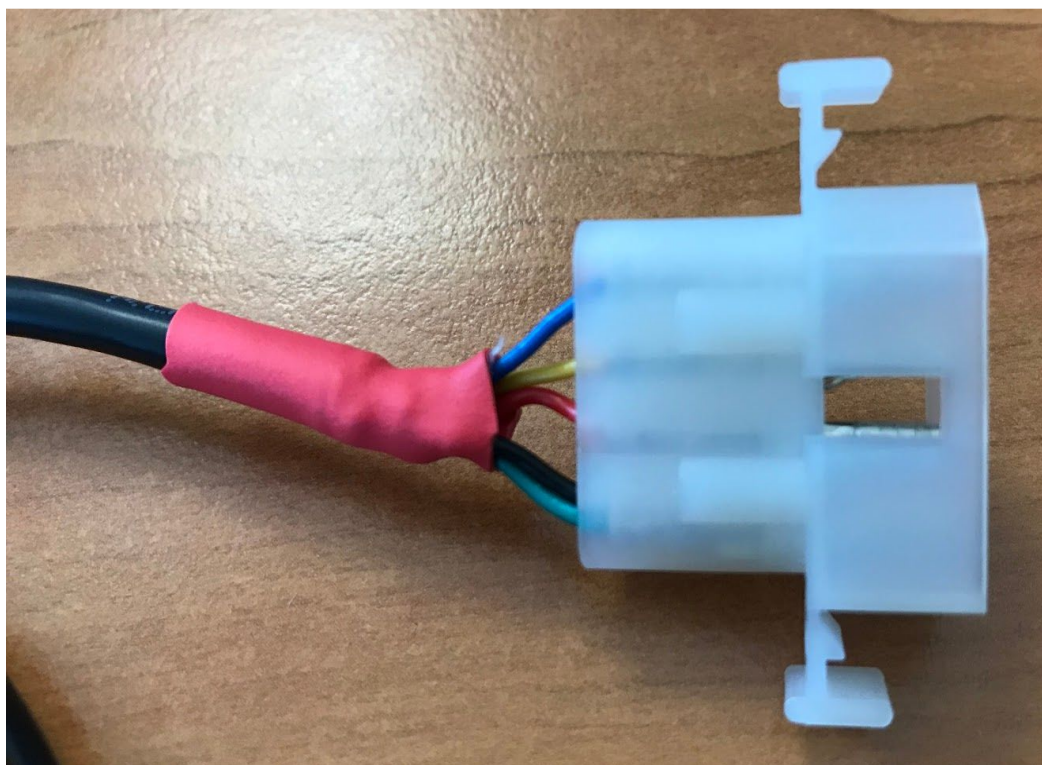

Using the instructions for the ICOM Click2Tune, install the white MOLEX plug.

Pin 1 = Blue (pointed end of plug)
Pin 2 = Yellow
Pin 3 = Red
Pin 4 = Green/black (GND/Screen)

2) DIN plug

Remove the plastic shroud from the DIN plug.
Slide it over the cable.
Solder the wires as shown.
 Pin 1 = Green
Pin 2 = Red
Pin3 = Yellow
Pin 4 = Blue

Version 1.0 5-Sept-2018

The shield should not be connected.
The cable should be gripped in the plug shell as shown in the photo below.
Reassemble the plug.
